Client Comments

Latka's Doggie Treats

"Planet Media designed an e-commerce presence for our brand that provides a convenient, secure and efficient shopping experience for our consumer and wholesale customers. As a start-up, Latka's Treats faces the unique challenges of growing and evolving each step of the way. Kurt and his team worked to not only meet our current needs, but the solutions they developed also anticipated our future needs. The Planet Media team worked in a highly organized manner, gave our project the time and attention it needed and in the end, delivered Latka's Treats a very attractive and professional looking online presence in the competitive pet products marketplace".

"A friend referred me to Planet Media. They were not only helpful and professional, but patient and understanding all along the way. For a computer neophyte, they walked me through the process. I am very impressed with their work, and highly recommend them".
